ABOUT ME

I'm a 22 years old student who dedicated the last five years of his life to develop his passion for computer siences and turning it into a lifestyle . I worked days and nights to improve my coding skills by going through self-taught courses and learning new technolgies like ReactJs and Django .

EDUCATION

2019 — lycée Mixte Sidi Bouzid

Bachelor degree in Mathematics

During which I explored the basics of mathematics and computer science and made some social networks

2022 — Higher Institute of Technological Studies,Sidi Bouzid

Applied License in Multimedia , Web Design and Development

Multimedia Web Design and Development (MWDD) program is where you learn how to build and design Websites

Experience

2019 — Minimalist

Remote Work , Freelance

During this freelance mission . I developed an ecommerce site like tayara.tn to a French client .

2020 — Introductory internship

RIATICA SARL : A23, Imm Zaytouna, Cité Elouroud, SidiBouzid 9100, Tunisia

During this internship, I was introduced to ReactJs for the first time. With prior knowledge of back-end development in Django. I developed a simple web app for team management "team101" using the React-Django stack.

2021 — Professional internship

RIATICA SARL : A23, Imm Zaytouna, Cité Elouroud, SidiBouzid 9100, Tunisia

During this phase i was assigned to develop and maintain an ecommerce business to business web site using the Django framework .
